Inventorship

1. In view of the papers filed June 5, 2006, it has been found that this nonprovisional application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(c). The inventorship of this application has been changed by the addition of:

Robert C. Gallo, Milkulas Popovic, Mangalasseril G. Sarngadharan, Solange Chamaret, Claudine Axler-Bin, Francoise Rey, Marie-Therese Nugeyre, Jacqueline Gruet, Charles Dauget, Willy Rozenbaum, Christine Rouzioux, Francoise Brun-Vezinet, Luc Montagnier, Jean-Claude Chermann, Francoise Barre-Sinoussi, Pierre Tiollais.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The current claims are drawn to specific HIV sequences and methods of using those sequences which were not taught or suggested by any prior art. The current applicants represent many of the original discoverers of HIV and the current application claims priority to those early dates. The BPAI awarded priority to the Chang application, but the currently claimed sequences all recite a portion of the HIV-1 LTR which is not taught or suggested by Chang, so Chang is not prior art. Further, in view of the terminal

disclaimers, there is no double patenting issues over related issued applications. The claims are enabled, novel and unobvious over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
